

Aquaculture Development Area (ADA) Shellfish and Marine Plants Potential Locations

This map was created by the Municipality of Argyle for the purposes of seeking feedback from the public on the Aquaculture Development Area (ADA) pilot project and potential marine areas chosen. The ADA project is a collaborative effort by the Nova Scotia Department of Fisheries and Aquaculture and the Municipality of Argyle.

Legend
 Proposed ADA Areas

Note: The Proposed ADA Areas are polygons within the Municipality of Argyle waters that have been identified as potentially being suitable for shellfish and marine plant aquaculture through the Aquaculture Development Area pilot project.
